Mumbai, Maharashtra

+91 8104780513    [dikshantsolanki214@gmail.com](mailto:dikshantsolanki214@gmail.com)    [Linkedin](#)

## Education

**Vidyavardhini's college of Engineering and Technology**

**August 2019 - June 2023**

*Bachelor of Engineering in Instrumentation Engineering (CGPA - 8.11)*

*Mumbai, Maharashtra*

## Technical Skills

**Languages:** C++, JavaScript, HTML, CSS.

**Frameworks/Technologies:** ReactJS, NextJS, Redux, Sanity.

**Libraries:** Material UI, Tailwind CSS, Gsap, Supabase

**Hosting services:** Netlify, vercel, Firebase, Github.

**Version control system:** Github, Gitlab.

## Projects

**Portfolio | NextJS, Tailwindcss, SCSS, GSAP | Live Link | Project-Code**

- Designed and Developed a visually stunning website with pixel-perfect precision, utilizing a combination of SCSS and Tailwind CSS. Implemented GSAP for dynamic scroll effects on various elements, enhancing the overall user experience.
- I built an amazing website by adhering to best coding practices and ensuring maintainability. With the proper utilization of GSAP, I incorporated features that enhance user engagement and deliver an exceptional browsing experience.

**Modern Dashboard | React JS, Tailwind CSS, Syncfusion | Live Link | Project-Code**

- Built an interactive website for a company, encompassing data representation and management functionalities such as orders, employees, and customers. Integrated Syncfusion responsive components for data visualization and editing.
- Developed a website with dark mode capability, allowing users to switch between different themes to customize the entire website's color scheme.

**Keipal Ecommerce Webapp | NextJS, Tailwind CSS, Redux | Live Link | Project-Code**

- Developed a contemporary and responsive business landing page, utilizing modern UI/UX principles to effectively showcase products and engage potential clients.
- Utilized React JS and Tailwind CSS to build a modern business landing page, leveraging their capabilities to create a seamless user experience.

## Internships

**Zerror Studios | Role - FullStack Developer | March 2023 - April 2023**

- \* Developed the frontend of a political party website using NEXT.JS framework. Implemented scroll optimization with GSAP for seamless scrolling experience and employed lazy loading techniques for heavy graphic content. Implemented dynamic routing to efficiently manage multiple links with similar content.
- \* Developed multi-level login forms, integrating backend APIs for secure data connectivity and proper authentication and authorization.

**Proteus Advisors Pvt Ltd | Role - Frontend Developer | August 2022 - April 2022**

- \* Restructured and built Reactjs code, enhancing the architecture and maintainability of the business landing page. Employed modern UI/UX principles to create a responsive design, optimizing the page's presentation and facilitating seamless sharing with potential clients

## Achievements

- 3 star coder rating on Codechef in time span of 2 months.
- solved 300+ questions on different sites like Leetcode, GFG and Codeforces overall around 300 solved.
- Demonstrated exceptional leadership as Treasurer for the ISA committee over a span of two academic years. Successfully managed and organized renowned events such as E-yantra and VNPS.
